APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is  
understood that the amount of water herein granted is only a temporary allowance  
and that the final water right obtained under this permit will be dependent upon  
the period of use and the average number of livestock served from the waters of  
this source. It is further understood that this right must allow for a reason-  
able lowering of the static water level at permittee's well due to any other  
ground water development in the area. The well shall be equipped with a 2-inch  
opening for measuring depth to water. If well is flowing, a valve must be  
installed and maintained to prevent waste. The State retains the right to  
regulate the use of the water herein granted at any and all times but does not  
take responsibility for the use of the Federal range.  
This Permit does not extend the permittee the right of ingress and egress  
on public, private or corporate lands.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.00032 cubic feet per second or sufficient water to  
water 25 head of sheep, 4 cows, and 1 horse.

- Actual construction work shall begin on or before N/A
